

ENVIRONMENTAL PLAN

Surfside Buslines is committed to protecting the environment in which it operates and has influence. As part of our commitment we have developed this Environmental Plan which is linked closely to our [Environmental Policy](#). As part of our commitment to continuous improvement we have achieved and maintain certification to *ISO14001:2015 Environmental Management Systems*, and have developed a number of environmental objectives and initiatives listed below:

1. Reduce greenhouse gas emissions
 - We track fuel consumption and set targets for reduction;
 - We celebrate our drivers who achieve exceptional fuel economy;
 - Our vehicles comply with ADR and Euro standards for emissions and have environmentally friendly technology installed;
 - Our preventative maintenance program is consistent with or exceeds the bus manufacturer's specifications.
2. Prevent pollution, reduce waste and minimise the consumption of resources.
 - We capture rainwater for use in cleaning our vehicles;
 - We have introduced an LED lighting program throughout Surfside Buslines depots to conserve energy consumption;
 - We continue to look for innovative solutions to reduce our waste, pollution and minimise consumption.
3. Educate, train and motivate employees to carry out tasks in an environmentally responsible manner.
 - All our drivers receive training in our 'driver efficiency' program, which also helps to ensure our customers are provided with a safe and comfortable journey;
 - We continue to look for innovative training and education solutions.
